Zip up your entire internet site folder and upload it to FOL

Submission dropbox called 'Final Integrated Assignment - Website Project = 30%'

[1052] Project3: Final Integrated Assignment

STUDENT WEBSITE 03_FINAL PROJECT

Semantic Tagging & CSS layout

Assignment Description: Each student is required to create a three (3) page website based on the HTML/ CSS templates provided in class. The subject of the website is entirely up to the student. The design must be an HTML5 fixed-width site utilizing flexbox as the primary method of layout. Students must adhere to the layout set by the template photoshop file.

Assignment Requirements:

Web Pages -3 pages (1 contact page) -Semantic HTML 5 tagging -Valid HTML5 -Proper Document Outline -Link to CSS files -Valid CSS -CSS flexbox based layout -Properly compressed and scaled images

Additional Components -All photographs or images must be taken by you, created by you, or pulled from a stock photo website.

Additional information will be given in class, you are encouraged and expected to ask questions, if you are absent it is your responsibility to check with other students.

Submission: - Projects must be submitted at the end of Week 13 (More info will be provided).

Submission requirements are as follows: - Link to Github repo: master branch with dev branches as required (don't delete branches). - ONLY THE MASTER BRANCH WILL BE GRADED!!! - secondary branches should be named appropriately IE dev.tvr.bio, dev.jb.bio - Submit the repo link and partner names via FOL dropbox - DO NOT submit files. They will be ignored.

Project Repo Contents: - index.html, ?.html and contact.html - images folder - css folder - js folder - assets folder (everything you used in the creation of this project - psd, ai, etc,) - includes folder

PLEASE NOTE: That your project will not be graded unless you adhere to what has been outlined for you in this document. Individual practices that were given to you during the semester are applicable here as well. i.e., A photoshop file with improperly labeled layers, code not in between body tags, lack of naming conventions, etc.

Naming convention for submission: LastName_FirstName_Integrated

Grading (30%)

Essential Elements	0	1	2	3	4
Pages	No pages created	1 page created, may or may not have original content	A couple pages created, may or may not have original content	3 pages created with some original content	3 pages created and filled with original content. Content Exceeds expectations
Semantic Tagging & Document Outline	No Semantic tags used with improper doc outline	Some semantic tags used with improper doc outline	Some semantic tags used with proper doc outline	Most semantic tags used with proper doc outline	All semantic tags used with proper doc outline. Exceeds expectations
Valid HTML	Did not validate	Several validator errors	A couple validator errors	One validator error	All code validated
Valid CSS	Did not validate	Several validator errors	A couple validator errors	One validator error	All code validated
Design	Poor colour choices, typography and overall execution. Completely Lacks professionalism	Mediocre colour choices, typography and overall execution. Lacks professionalism	Average colour choices, typography and overall execution. Shows some professionalism	Good colour choices, typography and overall execution. Meets industry expectations	Excellent colour choices, typography and overall execution. Exceeds expectations
Followed Directions	Did not follow any directions	Followed a few directions	Followed some directions	Followed most directions	Followed all directions

[1054] Final Integrated Project

Posted Nov 9, 2019 2:33 PM

Hi all

For the fall term, I'm only grading workflow (Github) stuff for your final integrated project. The document you went through with Justin at the beginning of the semester includes submission requirements – Git, Github, branches, a link to the repo etc. Make sure you're not forgetting to do that stuff – don't just submit a zipped project.

A well-written Readme doc is expected as well.

Thanks

TVR

- Workflow, Commits and organized branches
- Great Readme doc

1050 -

1051 – Dec 8, 11:30 pm

1052 – Dec 8, 11:59 pm

1053 – Dec 8, 11:30 pm
